

## Inter-Communal Children's Choir

### Health Protocol

*for COVID-19*

**Dear Parents and Guardians,**

**please read the following useful information and guidelines on how the rehearsals of the Choir will be conducted for the best possible protection of your child due to the COVID-19 pandemic.**

- The use of mask is necessary during the entrance and exit of your child from the rehearsal venue, as well as during the rehearsal. The use of mask is not necessary while they are singing.
- The children must disinfect their hands during their entrance and exit from the rehearsal venue using the special disinfectant provided at the venue.
- The children will be seated having 1,5 meter distance between them and their seats will face at the same direction (towards the conductors and the piano).
- During the rehearsal every child will have a specific seat and it is not allowed to change between them. A sitting plan will be made so we know every time where your child must seat.
- The children will have their break at an outdoor space.
- Please advise your child not to exchange any object with another child (e.g. songs, pencils, folders).
- You are not allowed to accompany your child in the rehearsal room. During the rehearsal you are invited to stay at the Home Café, where you can get some rest and a beverage.

*The Intercommunal Children's Choir is funded by the Federal Foreign Office of the Republic of Germany.*
